1. Project description

In here focus is to create a better user interface compared to the existing one. The websites are well-designed in term of content, but their user interface(UI) negatively impacts the user experience. This is not good for both parties who are users experience is negative on them, In HCI, it shows the interaction within computer and its user. The user interfaces (UIs) used in this interaction should be intuitive and easy to use.

For our project, we've selected "Rover P6 Parts", a website designed for buying, selling, and posting goods and services. The UIs of the website are completely out the modern structure and there are lots of errors all over the website. We have successfully gathered all the essential details from the experts sources. Our objective is to create a significantly more user-friendly and efficient website, ensuring that users can navigate seamlessly without encountering any issues.

2. Workload Distribution

No	Student Name	Selected Pages
Member 1	Siyambalapitiya H.N	❖ Shopping list ❖ promotional product customer ❖ information and right to cancel
Member 2	Serasinghe G.P.G.Y	❖ Home Page ❖ Privacy Policy Page ❖ Basket Page
Member 3	Ediriwickrama E.A.K.V	❖ Gift voucher Page ❖ Ratings Page ❖ My order Page

Member 4	Karunanayake K.M.S.S	❖ About Us page ❖ My Account Page ❖ Payment Page
Member 5	Dodampegama N.H	❖ Registration ❖ Contact Information ❖ Delivery Addresses

3.Alternatives considered

In our project we are mainly focusing on how we can give better users experience who are access the <https://shop.roverp6cars.com/> Website. An e- commerce website is a digital platform that facilitates the buying and selling of various goods, which can include tangible products, digital items, or services, over the internet. This online marketplace enables businesses and individuals to showcase their products or services, manage transactions, process payments securely, and interact with customers through a user-friendly interface. E-commerce website have become an essential part of modern business, providing a convenient and accessible way for consumers to shop and for sellers to reach a global audience. Trade, be it barter exchange or buying and selling of goods and services has been prevalent for centuries.

Our group members selected five websites and finally chosen the best our of them.

The other four website links are given below

- ❖ <https://www.siamflorist.com/en/>
- ❖ <https://www.gatesnfences.com/>
- ❖ <https://www.xpress.jobs/>
- ❖ <https://takas.lk/>

3. User groups identified

We were able to identify three user groups who are using this website daily. The user groups are shown as follows,

- ❖ Unregistered User
- ❖ Customer
- ❖ Reseller

5. Usability issues identified by the students

IT 21367458 Siyambalapitiya H.N

Shopping list(crud)	promotional product	customer information and right to cancel.
• Some images are not clear • Used images are too small • No any footer on the website • Font color: product details and some buttons are difficult to find due to the color variations • Too much white space • Less attractive	• Too much white space • Product items are different sizes • Description Details are not readable because of small font size • Font families are different • Images are not clear	• Too much details in the page • Less attractive • Lots of details in there and lots of unwanted things in there • Font size is very small Lacking proper arrangement

IT 21360978 Serasinghe G.P.G.Y

Home Page	Privacy Policy Page	Basket Page (crud)
- The web page does not display in full screen on any device. - The page displays all things in one pile, including headers and descriptions and images. - Page titles and descriptions are difficult to identify separately. - The text on the page is in different colors. - The text on the page appears at the same size. - The page shows a lot of details, and the text size is small. The nav bar is small in size and hard to distinguish from other things	- There is too much content in the Page. - Inconsistent layout. - Some links are difficult to distinguish from other details. - Information on the page not well organized. - The web page does not display in full screen on any device. - Some texts are Unclear.	- The web page does not display in full screen on any device. - Inconsistent layout - There is too much white space on the page. - Text size is too small. - The background color of the table makes the delete button less visible and the delete button is smaller. - The button size and background color are the same as the table color. - Continue shopping does not appear as a button.

IT 21273094 Ediriwickrama E.A.K.V.

Gift voucher Page	Ratings Page(crud)	My order Page
- Web Site Details and some buttons are difficult to find due to the color variations. - product details are too much and not clear the details. - Details are not readable because of the	- text boxes are too small. - buttons are too small, and colors are same - outdated web designing - page is not mobile responsive.	- so many blank areas on the web page. - buttons are too small, and colors are same - outdated web designing - some links should appear as a button.

small font size. - images are not clear, and some Services images are not visible. - Button size is not suitable. - unnecessary links are available in the page. The background color is not suitable	- unnecessary information are in the page - some links should appear as a button. - not attractive same details are display in many pages	- inconsistent layout - web page details are cannot clearly understand. - not attractive
---	--	--

IT 21234002 Karunanayake K.M.S.S.

About Us page	My Account Page	Payment Page (Crud)
- The web page does not display in full screen on any device. - There is not enough content on the page. - Large blank areas on the web page. - The information is not readable because of the small font size. - Not Attractive page - No Images for getting an idea about the business	- Used icons are too small and do not match the web page. - Page header and details are difficult to identify separately because of font size. - Haven't used page space to display the details perfectly of the page. - Not use an attractive color to the web page. - The font size is not suitable. - Not enough details on the page	- Text boxes are too small. - Request Unnecessary details on the web page. - Inconsistent layout used. - Not use any attractive icon or image to the page. - The font size of the content of the page is not suitable. - Some texts are unclear to read.

IT21293412 Dodampegama N.H.

Registration	Contact Information	Delivery Addresses (crud)
• Registration form includes some information that is not essential for the user to create an account. • “Create Account” button size and color are not suitable. • The font size of the topics and the font size of the details are the same size. • Too much white spaces. • Form format is not satisfied. • Not attractive.	• Some details are not readable because of small font size. • So many white spaces on the web page. • Not attractive. • Small description. • Contact Information page is too unfriendly to the user because of some contact details have not insert by page creators. • Does not contain a form for users to contact them easily without leaving the browser.	• Too much white areas. • Not attractive. • Button sizes and colors are not suitable. • Form format is not satisfied. • The font size of the topic and the font size of the details are the same size.

Personas

our application Rover P6 Parts.com website. We chose University student, motor company manager and online businessman as users as they are from three different categories.

Persona 01: Category : Unregistered User(University Student)

KAVINDI FERNANDO
Unregistered User

About

 21

 Undergraduate

 Sri Lanka

 Beginner

 Student

 Single

Meticulous

Assertive

Energetic

Helpful

Creative

Tech Savvy

Bio

Kavindi Fernando is a 3rd year undergraduate student. She is eager to learn about new technologies and business-related product and services that are produced daily throughout the world. He/she isn't familiar with this platform, but possesses strong technical expertise as an undergraduate student. he/she has a solid grasp of business concepts, innovative entrepreneurial ideas, and a keen understanding of commerce. Additionally, enjoys delving into websites like this one to gather information and enhance their knowledge base.

Motivations

- Passion for learning and personal growth
- Desire to excel academically
- Curiosity about new technologies and business trends
- Drive to succeed in future career
- Interest in entrepreneurship and innovation
- Desire to stay ahead of the competition
- Motivation to make a positive impact in the world
- Enthusiasm for exploring new ideas and concepts

Goals

- Stay updated with the latest technologies
- Learn about business trends and innovations
- Find resources for research projects
- Connect with like-minded individuals
- Acquire new skills and knowledge
- Explore entrepreneurial opportunities
- Discover new business products and services

Personality

Introvert	Extrovert
Thinking	Feeling
Judging	Prospecting
Assertive	Turbulent
Intuitive	Observant

Pain Points

- Difficulty in navigating the platform
- Confusing user interface
- Slow loading times
- Limited search options
- Lack of relevant content
- Inability to connect with other users

Persona 02: Category: Customer(Repair Manager)

THARUKA NISAL
Customer

About

28

Usability issues identified based on contextual inquiry

User	Interface Name	Usability Issue
Customer	Register page	- Registration form includes some information that is not essential for the user to create an account. “Create Account” button size and color are not suitable. - The font size of the topics and the font size of the details are the same size. - Too much white spaces. - Form format is not satisfied.
	Ratings	- text boxes are too small. - buttons are too small, and colors are same - outdated web designing - page is not mobile responsive. - unnecessary information are in the page - some links should appear as a button. - not attractive

		same details are display in many pages
	Order page	• so many blank areas on the web page. • buttons are too small, and colors are same • outdated web designing • some links should appear as a button. • inconsistent layout • web page details are cannot clearly understand. • not attractive
Unregistered Customer	Customer information & right cancel page	• Too much details in the page • Less attractive • Lots of details in there and lots of unwanted things in there • Font size is very small • Lacking proper arrangement
	privacy and policy page	• There is too much content in the Page. • Inconsistent layout. • Some links are difficult to distinguish from other details. • Information on the page not well organized. • The web page does not display in full screen on any device. • Some texts are

		Unclear.
Reseller	Shopping cart	• The web page does not display in full screen on any device. • Inconsistent layout • There is too much white space on the page. • Text size is too small. • The background color of the table makes the delete button less visible and the delete button is smaller. • The button size and background color are the same as the table color. Continue shopping does not appear as a button
	Order page	• so many blank areas on the web page. • buttons are too small, and colors are same • outdated web designing • some links should appear as a button. • inconsistent layout • web page details are cannot clearly understand. • not attractive
	Contact us page	• Some details are not readable because of small font size. • So many white spaces

		on the web page. • Not attractive. • Small description. • Contact Information page is too unfriendly to the user because of some contact details have not insert by page creators. • Does not contain a form for users to contact them easily without leaving the browser.
--	--	--

Ratings of the Usability problems as high medium and low

: High

: Medium

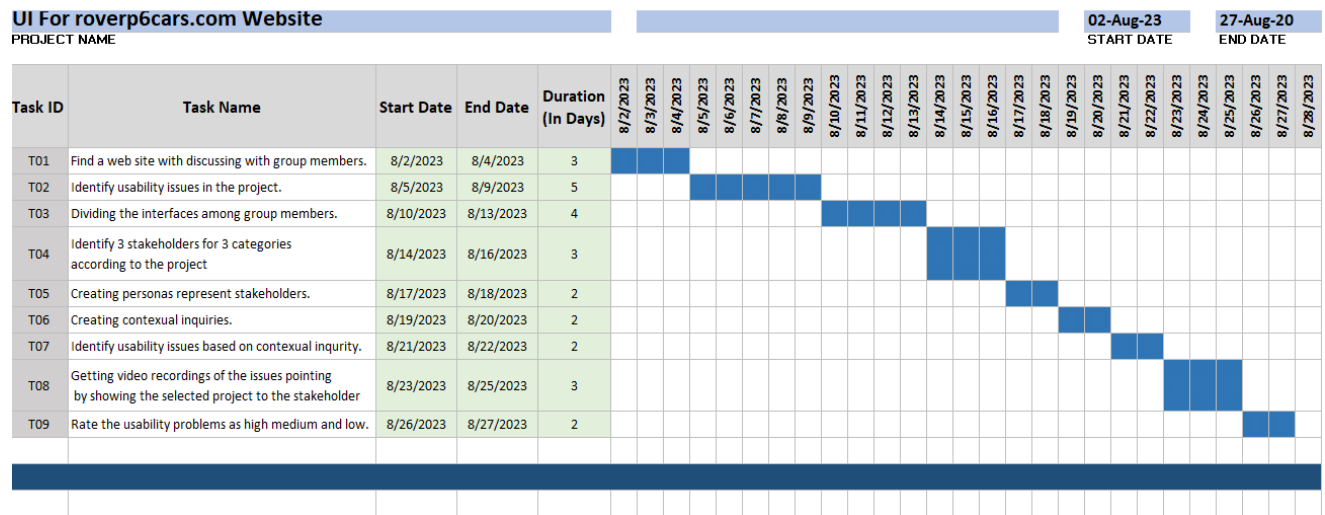

: Low

User	Usability issues	Ratings
Customer	The font size of the topics and the font size of the details are the same size.	
	Too much white spaces	
	some links should appear as a button	
	buttons are too small, and colors are same	
Unregistered	Too much details in the page	

User	Information on the page not well organized	
	The web page does not display in full screen on any device	
	Some texts are Unclear.	
Reseller	The background color of the table makes the delete button less visible and the delete button is smaller	
	so many blank areas on the web page	
	Does not contain a form for users to contact them easily without leaving the browser
